DESCRIPTION: The following position is offered as a field placement through the Region IV Public Health Training Center (<https://r4phtc.org/>).

Note: Though 100% in person is ideal, a hybrid or fully remote option may be available.

The mission of the Chatham County Public Health Department is to build a healthy Chatham County through community partnerships and a commitment to equity. The Chatham County Health Department includes 4 divisions with various roles:

- Environmental Health – education and enforcement of state and local mandates related to food, lodging, institutions, lead poisoning prevention, septic systems, and well water.
- Clinical and Community Services- assist clients in maintaining healthy lifestyles through preventive health screenings and exams and connecting clients to appropriate human service providers. Programs include diabetes prevention, breast & cervical cancer, child passenger safety, immunizations, newborn home visiting program, nutrition counseling.
- Health Promotion & Policy: supports and initiates activities designed to favorably influence knowledge, attitudes, practices and policies related to public health.
- Administration: provides support to various divisions of the department.

POSITION DESCRIPTION: Chatham County Environmental Health has proposed a new water sampling initiative to the Board of Commissioners for FY 25 budget. The initiative is in response to the community assessment that demonstrated the top area of focus for Chatham County residents is water quality, including wells. Additional surveys have shown that well owners either did not know that the well should be sampled routinely or could not afford to sample the well.

This project is twofold:

1. Develop a program within the approved budget to offer free or sliding scale well water sampling to remove cost as a barrier for all residents.

2. Develop an educational campaign to encourage well owners to sample their wells routinely.

REQUIRED QUALIFICATIONS:

- Adaptable
- Dependable
- Positive attitude

PREFERRED QUALIFICATIONS

- Interest in protecting public health through environmental health interventions.
- Bilingual in Spanish/English.

THE STUDENT WILL HAVE THE OPPORTUNITY TO ASSIST WITH THE FOLLOWING ACTIVITIES:

- Research budget and procedures of other low-cost water sampling programs across the country.
- Develop a budget for program.
- Create a program policy.
- Develop educational campaign encouraging well owners to sample their wells.
